Archangel Raphael is the Archangel of the Green Ray of Healing, Science, Music and Mathematics and brings the gifts of dedication and concentration. Raphael is also the Archangel of Truth, who guides and grants our Divine awareness to awake, especially activating our Third Eye, Raphael is associated with the element of Air, which is symbolically linked with the intellect. This is reflected in the fact that he does not simply heal us. To do that would take our power away from us. Instead he encourages us to work with our intellect and he helps us to clarify and understand why we are ill or in pain. He then shows us how to be whole again. Together with his Divine Complement, Maria, their Healing Emerald Flame can be called upon to minister into the pain and suffering of our life and world including medical conditions, diseases, warring, homelessness, poverty, starvation, abandonment and abuse. Raphael and Mary assist healers, doctors, psychologists, nurses and other caregivers, as they work closely with Ascended Master Hilarion and the Divine Elohim Cyclopea & Virginia. Their intervention gifts inspiration to scientists for new cures and those practicing music, mathematics and sacred geometry.

Archaeon Raphael is a Regent Prince of the Cherubim, and he works with the many angels of healing. His name means "God heals". Many of his healing missions have been recorded in the Bible, such as curing Jacob's wounds, healing Abraham's pain and taking a "medical book" to Noah after the Flood. Raphael works on the green ray, the violet ray and with the green flame of truth, healing, abundance and science in companionship with the Ascended Master Hilarion and with the violet flame in companionship with Tzadkiel and Master Germain. ... He also supports doctors and healers, as well as overseeing and supporting all new developments in healing sciences and new therapies that are developed. In symbolic portrayals he may be seen carrying a vial of balm (a healing salve) and often also a staff, representing wisdom. It is this staff that you will see represented in the symbol of Caduceus - the twin serpents entwined round a rod that is the symbol of healing and healers. He has also been referred to as a "Guide in Hell", and this shows that his mercy and care of all beings is without limit or judgement.
