I am the sacred planet called Mother Gaia

I am the world incarnate transcending to a Higher Light Focus

I am a radiant, Divine collective consciousness, embracing All I Am

I am four sacred kingdoms transcending into Divine liberation

I am transfiguring aspects of density into crystalline aspects of my core self

I am beauteous before the Mother, and illumined before the Father

I am flowing Light energy brought through by my sister Sun

I am in company with planetary consciousness evolving to our next True reality

I am absolute consciousness loving All I carry through to Spirit

I am planetary Love and Cosmic graciousness

I am abundant source Energy and silvery moon peacefulness

I am generous as I am prosperity and I am above all things, Love!
