

GLOSSARY OF TERMS:

Angels: The Angelics ARE a singular unified energy with roles to play throughout all the planes and Dimensions of reality, just as we too are merely aspects of the Divine, struggling to remember who we are and reunite with our True Self. It may be easiest therefore to see each Angel as simply an aspect of a Unified Reality, just as our physical body is a complete life-form, yet is composed of many organs and systems that each have an individual function to perform in order for that physical body to exist. Each Angelic aspect has two polarities, required for the fullest possible expression of their Light. These are what we describe as "masculine" and "feminine": twin-flames of the One Flame. The crossing point exemplifies their True Unified nature: the further away you travel from this to either side the greater the influence of the male or female polarity. Angels, when not referring directly to members of the angelic hosts, as is often the case, refer to the highest spiritual principle of man, the Atma, and sometimes to the Monad itself. The Monad is forever at one with the Logos, and it is therefore true of all men that "... their angels do always behold the face of my Father which is in heaven". This indicates the truth that the Monad is ever in the presence of the Spiritual Source, the Supreme Lord.

Their work in the world is to assist the Master's ashram in the evolution of man's spiritual attainment. Mighty I AM Presence: We have an Individualized Presence of God the "I AM" Presence as part of our very Nature and Being. It is made up of a Blue Plume, a Yellow Plume and a Pink Plume of Radiant God-Charged Electronic Light. Each Plume is a manifest Focus of God Qualities. The Blue Plume of Spiritual Power relates to Faith, Good Will and the Divine Intent. The Yellow Plume of Divine Wisdom relates to Illumination, to the right use of Knowledge, and to the expansion of the Intelligence of the Godhead into the chalice of the heart and mind. Saint Germain has explained that by calling to the Mighty I AM Presence to release this Action of the Sacred Fire, a person can purify the mind and body of unnecessary substances which hinder the Flow of Light and thus clear the consciousness to receive greater Illumination. This Flame of God elevates the unhappy substance of human creation back into its original Pristine Radiance.
