

Words from the Maha Chohan

From: The Ascension Research Center

Beloved Children,

The Great Universal Intelligence becomes the Father of the Universe long before a planet and its people come into manifest expression, and this Great Intelligence works out in detail every facet needed by the lifestreams who will incarnate upon it. Through this "Father Presence" there are directed out into universal space with geometrical accuracy, certain Foci which will be Radiating Centers through which the Life Force of the incoming planet shall pass, qualified according to Their Service for the good of the race which will evolve upon it. The Intelligences who enter into these Foci are, for the most part, Voluntary Beings from other Spheres who, by Their Own Self-Conscious Effort, draw the Life Force from the Universal and radiate the required substance such as the sun rays, the air, as well as the Qualities and Virtues that make up the Individuality. At a later date, from among the mankind of the planet, Individual Intelligences will be evolved, and the Volunteer Occupant of that Cosmic Center will relinquish His Position in favor of the Being whose evolution has prepared Him to hold such an Office. It is thus that I achieved and entered into the Office of the Maha Chohan, which I presently hold, having succeeded many previous Exalted Beings, whose Wisdom, Effort, Radiation, and Power have made possible My present Position and Who at any time, particularly on Feast Days, may return, and with Me radiate the Blessings of the Holy Spirit to the people of Earth.

In like manner, all Offices now held either by Beings from Other Spheres or from the Evolved Mankind of Earth will be relinquished joyously to members of the human race as they rise above the vibratory action of the outer self and, desiring to become part of the Cosmic Service, begin to build a momentum of some Universal Cause or Quality, such as Healing, Happiness, Purity, Mercy, or any Virtue or Quality for which the individual may have an affinity. Thus the Great Beings who hold the various Offices, like Helios and Vesta and the Elohim, are constantly on the alert to find, among the evolving race, any lifestreams who have a sympathy or possible attunement to Their Vibration and Cosmic Service.

When such individuals are found, there begins a "grooming" that goes on for many thousands of centuries, during which the Great Being who has singled them out endeavors — as much as the restrictions of the Cosmic Law will allow — to expand and balance the radiation of the lifestream, with the possible hope that in a future day such a one may become an aspirant for His Great Office. It is only after many, many centuries of love and selfless care that the intellectual consciousness begins to raise itself toward this unseen but Beneficent Force, which is molding and guiding the evolving soul. Then, there is always the question of "free will," - for no lifestream, even when highly advanced and evolved, need reciprocate, in the least, for the centuries of service and individual attention, by pursuing the course which the Greater Ones, in their Light and Wisdom, have mapped out for them, and it very often happens that at the end of this long time, the beloved chela decides to follow a different course.

It is thus that Great Cosmic Beings have developed among Their Characteristics and Qualities, Patience and a willingness to abide in Their Self-chosen Positions until, for Love's sake, some members of the race choose to follow in Their Footsteps, and qualify for Their Offices, allowing Their Benefactors to continue Their Own Evolution.

Blessings and love,

Maha Chohan
