

## ASCENDED LADY MASTER GODDESS OF VENUS

- ❖ **Also known as Goddess of Love, Beauty & Grace**
- ❖ **Planetary Logos of Venus**
- ❖ **Divine Complement: Lord Sanat Kumara, Bridge to Solar Christ Consciousness**

Beloved Lady Master Venus is the great Empress of Love, Beauty and Grace, embodying the consciousness of planet Venus. Venus and Earth were created as twin flame planets, twin stars, and they share a common evolutionary destiny. Goddess of Venus holds the focus of Love for this Solar System and her own celestial alignments and transits are playing a pivotal role in Earth's ascension.

She is greatly assisting in pole shift stabilization and the opening of many portals around the world for the influx of the transforming cosmic light rays. Call to this great Empress of Love and the ruby Fire to bring to you and our planet a greater concentration of Divine Love, Will and Grace of the Mother's Presence.

The Goddess of Venus is from a fully ascended planet and assists the Divine Plan in service to raising humanity. She offers Love's Supreme. The planet Venus is the guardian planet of earth. The Lady Venus inspired Sanat Kumara to come and join with Planet Earth to become its God source so that there would be yet another twin flame within the Celestial Radiance of God.

And so Sanat Kumara took up the office of Planetary Logos for the Earth for 18.5 million years, and only at this burgeoning of the New Age of Aquarius has he stepped up to "Bridge to Solar Christ Consciousness". Together with each of their Higher Aspects, Sanat Kumara and the Goddess of Love from Venus will hold the Ruby Flame of Love for the Ascending Earth and all evolved humanity for the New Age.
